

No Poverty			
SDG 1			
abject poverty	disability policy	gender wage discrimination	income-related inequalities
absolute income	distribution inequality	gender wage gap	income-related inequality
absolute poverty	distribution of income	gender wage inequality	individual income
access to basic services	distribution of wealth	generational poverty	inequality and growth
access to credit	distributional effect	gini coefficient	inequality change
access to electricity	distributional impact	gini coefficients	inequality data
access to financial services	distributive effect	gini decomposition	inequality decomposition
access to health insurance	distributive impact	gini index	inequality index
access to land	distributive policies	global index	inequality indicators
access to water	dynamics of poverty	global income	inequality indices
activation policies	earned income	global poverty	inequality measure
active labour	earned income tax	grameen	inequality measurement
active labour market	earnings distribution	grameen bank	inequality measures
active labour market policies	economic empowerment	group inequality	inequality of income
active labour market policy	economic growth and poverty reduction	group lending	inequality of opportunity
afdc	economic independence	growth and income distribution	inequality trend
affordable care	economic inequalities	growth and inequality	inequality trends
affordable care act	economic inequality	headcount	informal employment
age inequalities	economic poverty	headcount ratio	informal sector
age inequality	education and poverty	health and poverty	insurance benefits
age pension	elderly poverty	health and social care services	insurance cover
agricultural finance	electricity access	health care safety net	insurance coverage
aid to families with dependent children	employment and income	health cover	insurance enrollment
aid to families with dependent children (afdc)	employment benefits	health coverage	insurance exchange
alleviate poverty	employment guarantee	health financing	insurance exchanges
alleviating poverty	employment insurance	health insurance coverage	insurance expansion
alleviation strategies	employment policies	health insurance exchange	insurance health
and poverty	employment policy	health insurance exchanges	insurance marketplace
and unemployment	employment protection	health insurance expansion	insurance program
anti-poverty	employment service	health insurance market	insurance reform
anti-poverty policies	employment strategy	health insurance marketplace	insurance scheme
anti-poverty policy	employment-based	health insurance policy	insurance schemes
anti-poverty program	energy poor	health insurance premium	insurance system
anti-poverty strategies	energy poverty	health insurance program	insurance systems
asset poverty	energy poverty alleviation	health insurance reform	intensity of poverty
atkinson index	energy poverty index	health insurance scheme	intergenerational poverty
at-risk-of-poverty	energy vulnerability	health insurance schemes	intergenerational transmission of poverty
average income	equal income	health insurance status	international poverty line
basic income	equality index	health insurance system	in-work poverty
basic pension	equality measure	health payments	islamic microfinance
below poverty line	equality of opportunity	health poverty	islamic microfinance institution
benefit package	equality reduction	high inequality	islamic microfinance institutions
benefit receipt	equivalence scale	high poverty	jobless
benefit system	eradicating poverty	high unemployment	jobless growth
bismarckian	eradication of poverty	high-poverty	kakwani
black economic empowerment	esping-andersen	horizontal inequity	kakwani index
capital income	european employment strategy	household asset	labor market policies
cash assistance	european union statistics on income and living conditions	household expenditure	labour and livelihoods
cash benefit	european welfare	household food insecurity	labour income
cash transfer	european welfare state	household food security	labour market participation
cash transfer program	eu-sic	household head	labour market policies
catastrophic expenditure	extreme poverty	household income and expenditure survey	labour market policy
catastrophic health expenditure	fair equality of opportunity	household income distribution	land redistribution
causes of poverty	families in poverty	household income inequality	land restitution
charitable food	family policies	household incomes	level of income
child health insurance	family policy	household poverty	level of poverty
child poverty	family poverty	household survey data	livelihood diversification
child support grant	fare payment	household vulnerability	livelihood empowerment
child welfare reform	fare policy	household welfare	livelihood strategies
childhood poverty	fare scheme	housing poverty	living in poverty
children in poverty	fare system	hunger and poverty	local poverty
children living in poverty	federal poverty level	incidence of poverty	local welfare
children's health insurance	federal welfare reform	inclusion index	lone mother
chronic poverty	female-headed	inclusive finance	lone mothers
combating poverty	female-headed household	inclusive growth	lone parent
community poverty	female-headed households	income and consumption	lone parents
community-based health insurance	fight against poverty	income and expenditure	long-term unemployment
comparative social policy	fighting poverty	income and expenditure survey	lorenz curve
comparative welfare state	finance institutions	income and living conditions	lorenz curves
concentrated poverty	finance sector	income and wealth	low incomes
concentration of poverty	finance service	income and wealth distribution	low-income adults
conditional cash transfer	financial access	income and wealth inequality	low-income children
consumption expenditure	financial exclusion	income concentration	low-income families
consumption inequality	financial inclusion	income data	low-income group
consumption poverty	financial inclusion (fi)	income difference	low-income groups
contributory pensions	financial inclusion index	income differences	low-income household
coverage expansion	financial protection	income disparities	low-income households
credit program	financial risk protection	income disparity	low-income individuals
critical social policy	food assistance	income distribution	low-income people

a549 lung cancer cells	art adherence	cancer diagnoses	clinically significant prostate cancer
abirateron	art initiation	cancer disparities	clinicopathologic factor
abiraterone	artemisinin-based combination	cancer drug delivery	clinicopathologic factors
active surveillance (as)	ascvt	cancer gene expression	clinicopathologic parameter
acute ischaemic stroke	asthma care	cancer gene therapy	clinicopathologic parameters
acute ischemic stroke (ais)	asthma children	cancer history	clinicopathological variable
acute ischemic stroke patients	asthma control questionnaire	cancer inflammation	clinicopathological variables
acute myeloid leukemia patient	asthma control test	cancer information	co-infected patients
acute stroke treatment	asthma diagnosis	cancer intervention	colorectal cancer (crrc) screening
adherence to antiretroviral therapy	asthma exacerbations	cancer mechanism	colorectal cancer cell line
adjuvant chemoradiation	asthma guideline	cancer mouse model	colorectal cancer cell lines
adolescents with type 1 diabetes	asthma guidelines	cancer outcomes	colorectal cancer liver metastases
adult cancer survivors	asthma medication	cancer pain relief	colorectal cancer risk
adult congenital heart	asthma model	cancer pathogenesis	colorectal cancer surgery
adult congenital heart disease	asthma outcome	cancer quality of life	colorectal carcinoma (crrc)
adults with cancer	asthma outcomes	cancer registry data	combination antiretroviral therapy
adults with diabetes	asthma phenotype	cancer resection	combination antiretroviral therapy (cart)
adults with type 2 diabetes	asthma prevalence	cancer resistance	common toxicity criteria
advanced chronic kidney disease	asthma quality of life	cancer specific survival	community-acquired pneumonia (cap)
advanced esophageal cancer	asthma risk	cancer stem cell (csc)	complicated malaria
advanced hcc	atezolizumab	cancer stem cell marker	concurrent chemoradiation
advanced hepatocellular carcinoma	atherosclerosis cardiovascular disease	cancer stem-like	concurrent chemoradiotherapy (ccrt)
advanced hepatocellular carcinoma (hcc)	baseline c04	cancer stem-like cell	controlled asthma
advanced melanoma	baseline hba1c	cancer stem-like cells	coronary artery calcium (cac)
advanced non-small cell lung cancer (nsccl)	b-cell lymphoma 2	cancer stemness	crrc cell lines
advanced non-small-cell lung cancer	b-cell lymphoma 2 (bcl-2)	cancer strategy	crrc risk
advanced non-small-cell lung cancer (nsccl)	b-cell lymphoma-2	cancer survivorship	crrc screening
advanced pancreatic cancer	b-cell non-hodgkin lymphoma	cancer susceptibility gene	crizotinib
advanced rectal cancer	bcr-abl1	cancer symptom	cryptogenic stroke
advanced/metastatic	biochemical failure	cancer targeted	csc marker
afatinib	biochemical recurrence (bcr)	cancer targeted therapy	cteph
aggressive prostate cancer	bladder cancer (bc)	cancer theranostic	curative-intent
ajcc stage	bovine respiratory disease	cancer theranostics	current asthma
alcohol use disorder (aud)	bra1 inhibitor	cancer thyroid	cvd event
alcohol use disorders identification test	braf mutations	cancer xenograft model	cvd events
alcohol use disorders identification test (audt)	braf v600e mutation	cancer-associated fibroblasts (cafs)	cvd mortality
alcohol-dependent patients	brafv600	cancer-related fatigue	definitive chemoradiotherapy
alk inhibitor	brafv600e	cancer-related gene	dengue virus (denv)
alk-positive	brca mutation	cancer-related genes	denv infection
allergy, asthma	brca mutations	cancer-specific mortality	denv-2
american joint committee on cancer (ajcc)	brca1 and brca2 mutation	cancer-specific survival (css)	detectable viral load
aml cell lines	brca1 brca2	cannabis use disorder	diabetes diagnosis
anaplastic lymphoma kinase (alk)	brca1 mutation	carboplatin and paclitaxel	diabetes medication
atherosclerotic cardiovascular disease (ascvd)	brca1 or brca2	carcinoma hepatocellular	diabetes medications
autoimmune hepatitis (ah)	brca1/2 mutation	carcinoma, hepatocellular	diabetes mellitus type 1
avian influenza virus (aiv)	brca2 gene	cardioembolic stroke	diabetes mellitus, type 2
avian influenza viruses	brca2 mutation	cardiovascular and cerebrovascular disease	diabetes model
axillary lymph node dissection (alnd)	brca2 mutations	cardiovascular and cerebrovascular diseases	diabetes prevention
b16f10 melanoma	breast and prostate cancer	cardiovascular disease (cvd) risk	diabetes prevention program
barcelona clinic liver cancer	breast cancer cell proliferation	cardiovascular disease (cvd) risk factors	diabetes self-care
basal-like	breast cancer gene	cardiovascular disease prevention	diabetes self-management
anaplastic thyroid cancer	breast cancer mcf-7	castration resistant	diabetes status
and end results database	breast cancer mcf-7 cell	castration-resistant prostate cancer (crpc)	diabetes technology
and type 1 diabetes	breast cancer mcf-7 cells	cause-specific survival	diabetes-related complication
androgen deprivation therapy (adt)	breast cancer model	cervical cancer (cc)	diabetes-related complications
androgen-deprivation	breast cancer recurrence	cervical cancer cell line	diabetic kidney disease (dkd)
androgen-deprivation therapy	breast cancer resistance	cervical cancer prevention	differentiated thyroid cancer (dtc)
androgen-independent prostate cancer	breast cancer resistance protein	chb patients	diffuse large b cell
antenatal care (anc)	breast cancer resistance protein (bcrp)	checkpoint inhibition	diffuse large b cell lymphoma
anthracycline-based	breast cancer stem cell	chemical failure	diffuse large b cell lymphoma (dlbcl)
anthracycline-based chemotherapy	breast cancer stem cells	chemoradiation therapy	diffuse large b-cell lymphomas
anti-cancer activities	breast cancer subtype	chemoradiotherapy (crt)	dipeptidyl peptidase-4 inhibitor
anticancer drug delivery	breast cancer subtypes	child obesity	direct acting antiviral
anti-cancer effects	breast cancer surgery	childhood cancer survivor	direct-acting antiviral agent
anticancer efficacy	breast cancer susceptibility	childhood cancer survivors	direct-acting antiviral agents
anticancer mechanism	breast cancer therapy	children obesity	direct-acting antivirals
anti-cancer properties	breast cancer xenograft	children with obesity	direct-acting antivirals (daas)
anticancer therapeutic	brexlow thickness	children with type 1 diabetes	disease control rate (dcr)
anticancer therapeutics	bxc-3	chronic hepatitis b patients	disease-free and overall survival
anti-cancer therapy	ca-mrsa	chronic hepatitis c (chc)	disease-specific survival (dss)
anticancer treatments	cancer aggressiveness	chronic hepatitis c infection	disease-specific survival rate
anti-her2	cancer and nutrition	chronic hepatitis c patients	distant metastasis-free survival
anti-hcv	cancer apoptosis	chronic hepatitis c virus (hcv)	downstaging
anti-mrsa	cancer cell apoptosis	chronic hepatitis c virus (hcv) infection	drug use disorder
anti-obesity effect	cancer cell cycle	chronic hepatitis c virus infection	drug-resistant cancer
anti-obesity effects	cancer cell death	chronic hiv	drug-resistant tb
egfr tyrosine kinase inhibitors	gtargin	chronic kidney disease epidemiology collaboration	du-145
egfr-mutant	glargine	chronic kidney disease patient	du145 cell
egfr-mutated	gleason grade	chronic kidney disease patients	du145 cells
egfr-iki	gleason scores	chronic kidney disease stage	ear cancer
egfr-ikis	global initiative for asthma	chronic kidney diseases	eastern cooperative oncology group performance status
end results database	global initiative for chronic obstructive lung disease	chronic thromboemboli	ecog ps
endometrial cancer (ec)	glucagon-like peptide-1 receptor agonist	chronic thromboembolic	effusion lymphoma
endovascular thrombectomy	glucagon-like peptide-1 receptor agonists	chronic thromboembolic pulmonary	egfr inhibitors
end-stage kidney disease (eskd)	glycated haemoglobin (hba1c)	chronic thromboembolic pulmonary hypertension	egfr ik
entecavir	h1n1 pandemic	chronic thromboembolic pulmonary hypertension (cteph)	egfr tki
enzalutamid	h5n1 influenza	circulating tumor dna (ctdna)	egfr tyrosine kinase
enzalutamide	h5n1 virus	circumferential resection margin	egfr tyrosine kinase inhibitor
epidermal growth factor receptor (egfr) mutation	h7n9	hepatitis g virus	hiv knowledge
epidermal growth factor receptor (egfr) mutations	hba 1c	hepatocellular carcinoma (hcc) cells	hiv prevention intervention
epidermal growth factor receptor mutation	hbeag-negative	hepatocellular carcinoma cell line	hiv risk behavior
epidermal growth factor receptor tyrosine kinase inhibitor	hbv dna level	her2 expression	hiv rna level
epidermal growth factor receptor-2	hbv dna levels	her2 overexpression	hiv services
epithelial ovarian cancer (eoc)	hbv genotype	her2 positive	hiv stigma
epithelial?mesenchymal transition (emt)	hbv genotypes	her2 status	hiv viral load
er-positive breast cancer	hbv reactivation	her2+	hiv/hcv
esat-6	hcc cell lines	her2-negative	hiv/sti
escherichia coli (stec)	hcc development	her2-overexpressing	hiv-1 entry
esophageal cancer (ec)	hcc diagnosis	her2-positive breast cancer	hiv-1 integrase
esophageal cancer cell	hcc progression	hereditary breast	hiv-1 subtype
esophageal cancer patients	hcc recurrence	hereditary breast and ovarian cancer	hiv-1 subtypes
european organisation for research and treatment of cancer	hcc risk	hereditary breast cancer	hiv-1 vaccine
european organization for research and treatment of cancer	hcc treatment	hev infection	hiv-1 viral load
european prospective investigation into cancer	hcv coinfection	hev ma	hiv-1-infected patients
european prospective investigation into cancer and nutrition	hcv genotype 1	high hiv prevalence	hiv-associated neurocognitive disorder
european society for medical oncology	hcv patients	high-fat diet-induced obesity	hiv-exposed
exon 19 deletion	hcv replication	high-grade serous	hiv-infected adults
exposure to pm2.5	hcv therapy	highly pathogenic avian influenza	hiv-positive men
extrathyroidal extension	hcv treatment	highly pathogenic avian influenza (hpai)	hiv-related stigma
first-line setting	head and neck cancer (hnc)	highly pathogenic avian influenza virus	hiv-ma
five-year overall survival	head and neck squamous cell carcinomas	high-risk neuroblastoma	hiv-uninfected
flc3-tdi	head-and-neck cancer	high-risk prostate cancer	hmih
folfin	health services access	hiv acquisition	hmh1
folfox	health services accessibility	hiv antiretroviral therapy	hnscc cell lines

Quality Education			
SDG 4			
1-early childhood	asynchronous learning	distance students	english reading
2-childhood	attitudes towards inclusion	distance teaching	english reading comprehension
3-early adolescence	attitudes towards inclusive education	distance-education	entrepreneurial attitude
academic achievement.	authentic learning	distance-learning	entrepreneurial skill
academic achievements	basic surgical skill	dynamic indicators of basic early literacy skills	entrepreneurial skills
academic performance of students	basic surgical skills	dyslexia	entrepreneurship education
academic performance.	beginning readers	dyslexic	entrustable
academic performances	blended learning	dyslexic children	entrustable professional activities
academic reading	blended learning approach	early childhood special education	entrustable professional activities (epas)
academic skill	blended learning environment	early literacy	environmental education
academic skills	blended learning mode	early literacy development	environmental education (ee)
academic writing skills	blended learning model	early literacy skills	environmental education program
access to higher education	blended-learning	early reading	environmental education programs
access to university	book reading	early reading development	environmental education research
accreditation council for graduate medical education	career and technical education	early reading skills	environmental educators
accreditation council for graduate medical education (acgme)	case-based learning	early school leaving	equal education
acgme	cesh	early writing	equality in education
achievement gap	cgme	earning management	equity in education
active e-learning	children with dyslexia	education access	evaluation of cal system
active learning activities	children with reading difficulties	education and vocational training	evaluation of cal systems
active learning environment	children with special educational needs	education building	evaluation of teaching
active learning environments	children??s reading	education buildings	face learning
active learning strategies	children's literacy	education distance	face-to-face class
adaptive education	children's reading	education environment	face-to-face learning
adaptive educational hypermedia	chinese reading	education equality	face-to-face teaching
adaptive educational hypermedia system	citizenship education	education equity	faculty development
adaptive e-learning	classroom learning	education facilities	female trainees
adaptive e-learning system	classroom teaching	education for sustainability	fl reading
adaptive e-learning systems	classroom teaching quality	education for sustainable	flipped class
alphabet knowledge	clinical learning	education for sustainable development	flipped classroom
and distance learning	clinical learning environment	education for sustainable development (esd)	flipped classroom model
and e-learning	clinical teacher	education graduate	flipped classrooms
and learning motivation	clinical teachers	education higher	flipped learning
applications in subject area	clinical teaching	education in developing countries	free education
applications in subject areas	coding skills	education inclusion	future careers
apprentice	cognitive apprenticeship	education inequalities	game-based learning
apprentices	collaborative learning activities	education inequality	general and special education
apprenticeship	collaborative learning environment	education learning	general and special education teachers
apprenticeship learning	college students with disabilities	education need	general education class
apprenticeship model	competency based	education needs	general education classroom
apprenticeship program	competency-based	education needs assessment	general education classrooms
apprenticeship system	competency-based assessment	education online	general education teacher
apprenticeship training	competency-based education	education professional	general education teachers
apprenticeships	competency-based medical education	education quality	general surgery residency
architectures for educational technology	competency-based training	education quality assurance	general surgery resident
architectures for educational technology system	comprehension assessment	education reform	general surgery residents
assessment competency	comprehension instruction	education reforms	generic skill
assessment of reading	comprehension performance	education services	generic skills
comprehension skill	emergent literacy skills	education simulation	global citizenship
comprehension skills	employability	education sustainability	global citizenship education
comprehension strategies	employability of graduates	education sustainable development	gp trainee
comprehension test	employability skill	education teaching	gp trainees
context-aware ubiquitous learning	employability skills	education technology	graduate attribute
continuing professional education	inclusion in education	education training	graduate attributes
cooperative/collaborative learning	inclusive class	educational building	graduate employability
course delivery	inclusive classroom	educational buildings	graduate employment
curriculum education	inclusive classrooms	educational effect	graduate skill
curriculum-based measure	inclusive curriculum	educational effectiveness	hard and soft skills
curriculum-based measurement	inclusive education	educational equality	hard skill
decade of education for sustainable development	inclusive education policy	educational equity	hard skills
decoding skill	inclusive learning	educational exclusion	health education needs
decoding skills	inclusive learning environment	educational facilities	health professional education
design for learning	inclusive learning environments	educational hypermedia	health professional training
developing readers	inclusive pedagogy	educational hypermedia system	high quality education
development education	inclusive practice	educational inclusion	high school dropout
development of reading	inclusive practices	educational inequalities	higher education learning
developmental dyslexia	inclusive school	educational inequality	higher education quality
digital education	inclusive schools	educational inequities	higher education quality assurance
digital learning	inclusive set	educational infrastructure	higher education reform
digital learning environment	inclusive settings	educational innovation	higher education reforms
directed learning	inclusive teaching	educational need	higher education sustainability
disability education	individualized education	educational needs	higher professional education
disabled student	individualized education program	educational needs assessment	higher vocational
disabled students	individualized learning	educational policies	higher vocational education
distance course	individuals with disabilities education act	educational quality	high-quality education
distance courses	individuals with disabilities education improvement act	educational reform	home literacy
distance education	inequalities in education	educational reforms	home literacy environment
distance education (de)	inequality in education	educational rights	human rights education
distance education and online learning	initial teacher	educational strategies	humanistic education
distance education and telelearning	initial teacher training	educational strategy	humanities education
distance education courses	innovative education	educational technologies	impact on students
distance education program	instructional practice	educational technology system	improve teaching
distance education programs	instructional practices	effective e-learning	improved aca
distance education student	instructional quality	effective learning environment	improved academic performance
distance education students	instructional strategies	efl reading	improving classroom teaching
distance education system	instructional strategies; methods and materials	e-learning activities	improving student learning

chinese msm	female condoms	gender pay gap	hiv prevention trial
circumcision female	female director	gender perspective	hiv prevention trials
coercive control	female directors	gender policies	hiv prevention trials network
combination hiv prevention	female employment	gender policy	hiv risk
combination prevention	female empowerment	gender politics	hiv risk behavior
commercial sex	female entrepreneur	gender power	hiv risk behaviors
commercial sex work	female entrepreneurs	gender power relations	hiv risk behaviour
commercial sex worker	female entrepreneurship	gender quota	hiv risk behaviours
commercial sex workers	female executive	gender quotas	hiv risk factors
communication about sex	female executives	gender representation	hiv risk perception
comprehensive sex education	female genital cutting	gender representations	hiv risk reduction
comprehensive sexuality education	female genital cutting (fgc)	gender segregation	hiv risks
computer-assisted self-interview	female genital mutilation	gender sex	hiv screening
concurrent partners	female genital mutilation (fgm)	gender stereotype	hiv self-test
concurrent partnerships	female genital mutilation/cutting	gender stereotypes	hiv self-testing
concurrent sexual partners	female genital mutilation/cutting (fgm/c)	gender stereotyping	hiv seroconversion
concurrent sexual partnerships	female labor force	gender violence	hiv serodiscordant
condom	female labor force participation	gender wage gap	hiv serodiscordant couples
condom attitudes	female labour	gender wage gaps	hiv serostatus
condom distribution	female labour force	gender-based	hiv services
condom negotiation	female labour force participation	gender-based violence	hiv sexual risk
condom promotion	female leader	gender-based violence (gbv)	hiv sexual risk behavior
condom usage	female leaders	gender-bias	hiv sexual risk behaviors

Gender Equality SDG 5			
hiv sexual transmission	knowledge of hiv	partner violence	risky sexual behavior
hiv status	knowledge of hiv/aids	partner violence against women	risky sexual behaviors
hiv status disclosure	liberal feminism	pay gap	risky sexual behaviour
hiv stigma	long-acting reversible	perceived hiv risk	risky sexual behaviours
hiv surveillance	long-acting reversible contraception	perceptions of domestic violence	safe abortion
hiv test	long-acting reversible contraceptive	perinatal hiv	safe sex
hiv testing	long-acting reversible contraceptives	perinatal hiv transmission	safe sex practices
hiv testing and counseling	mainstreaming gender	perinatal transmission	safe sexual behavior
hiv testing services	male circumcision	perinatal transmission of hiv	safer conception
hiv tests	male condom	perpetration	safer sex
hiv transmission	male condom use	perpetration and victimization	safer sex practices
hiv transmission rate	male condoms	physical and sexual abuse	school-based sex education
hiv transmission risk	male entrepreneur	physical and sexual violence	screening for intimate partner violence
hiv transmission risk behavior	male entrepreneurs	physical dating violence	self-interview
hiv treatment and prevention	male genital cutting	physical intimate partner violence	seroconcordant
hiv treatment as prevention	male managers	physical ipv	serodiscordant
hiv vertical transmission	male partners	physical or sexual violence	serodiscordant couple
hiv vulnerability	male perpetrator	physical violence	serodiscordant couples
hiv/aids cases	male perpetrators	pmtc	serosorting
hiv/aids education	male rape	pmtct	sex act
hiv/aids epidemic	male sex work	pmtct program	sex acts
hiv/aids intervention	male sex worker	pmtct service	sex behaviors
hiv/aids knowledge	male sex workers	pmtct services	sex discrimination
hiv/aids prevention	male sexual assault	preexposure prophylaxis	sex ed
hiv/aids risk	male sexual health	pre-exposure prophylaxis	sex education
hiv/aids transmission	male sexual health questionnaire	preexposure prophylaxis (prep)	sex education program
hiv/std	male sexual partner	pre-exposure prophylaxis (prep)	sex partner
hiv/std prevention	male sexual partners	pregnancy intention	sex partners
hiv/sti	male victim	pregnancy prevention	sex risk
hiv/sti prevention	male victims	prep adherence	sex segregation
hiv/sti risk	male violence	prep awareness	sex work
hiv/sti testing	male-dominated	prep delivery	sex worker
hiv/stis	male-headed household	prep implementation	sex workers
hiv-1 prevention	male-headed households	prep initiation	sexism
hiv-1 transmission	marginalized women	prep knowledge	sexist
hiv-exposed	maternal employment	prep uptake	sexist attitudes
hiv-exposed infant	maternal hiv	prep use	sexist beliefs
hiv-exposed infants	maternal viral load	prevalence of hiv	sexual abuse disclosure
hiv-infected mothers	medical male circumcision	prevalence of hiv infection	sexual abuse prevention
hiv-infected msm	men entrepreneurs	preventing mother-to-child transmission	sexual abuse survivors
hiv-infected pregnant women	men having sex with men	prevention and care	sexual aggression
hiv-infected women	men living with hiv	prevention of hiv	sexual and gender-based violence
hiv-negative msm	men who have sex with men	prevention of hiv infection	sexual and reproductive
hiv-positive men	men who have sex with men (msm)	prevention of hiv transmission	sexual and reproductive health
hiv-positive mother	men who have sex with men and women	prevention of hiv/aids	sexual and reproductive health (srh)
hiv-positive mothers	men who have sex with men.	prevention of mother to child transmission	sexual and reproductive health and rights
hiv-positive msm	men who have sex with women	prevention service	sexual and reproductive health and rights (srhr)
hiv-positive pregnant women	men with hiv	prevention services	sexual and reproductive health care
hiv-positive women	men's movement	primary partner	sexual and reproductive health education
hiv-prevention	men's movements	protected sex	sexual and reproductive health needs
hiv-related knowledge	men's rights	psychological abuse	sexual and reproductive health outcomes
hiv-related risk behavior	men's sexual health	psychological aggression	sexual and reproductive health service
hiv-related risk behaviors	men's violence	psychological ipv	sexual and reproductive health services
hiv-related stigma	metoo	psychological violence	sexual and reproductive healthcare
hiv-risk	metoo movement	racism and sexism	sexual and reproductive rights
hiv-serodiscordant	microbicide	rape myth	sexual assault
hiv-test	microbicides	rape myth acceptance	sexual assault survivor
hiv-transmission	misogyny	rape myths	sexual behaviors
hostile and benevolent sexism	mode of hiv transmission	rapid hiv test	sexual behaviours
hostile sexism	modern contraception	rapid hiv testing	sexual coercion
hptn	modern contraceptive	receptive anal intercourse	sexual debut
human immunodeficiency virus (hiv) prevention	modern contraceptive method	receptive anal sex	sexual decision-making
human immunodeficiency virus (hiv) transmission	modern contraceptive use	regular partner	sexual education
hypersexual	modern contraceptives	regular partners	sexual encounter
hypersexual behavior	mother to child	relational aggression	sexual encounters
hypersexual disorder	mother to child transmission	relationship violence	sexual experience
hypersexuality	mother to child transmission of hiv	representation of women	sexual experiences
inconsistent condom use	mother-to-child	representations of women	sexual exposure
infant diagnosis	mother-to-child hiv transmission	reproductive and sexual health	sexual harassment
infant hiv	mother-to-child transmission	reproductive choice	sexual health
infublation	mother-to-child transmission (mtct)	reproductive coercion	sexual health care
injection drug user	mother-to-child transmission of hiv	reproductive decision	sexual health clinic
injection drug users	mother-to-child transmission of hiv-1	reproductive health and rights	sexual health clinics
injection drug users (idus)	mother-to-child-transmission	reproductive health care	sexual health communication
intended pregnancy	msm population	reproductive health education	sexual health education
intersectional analysis	mtct	reproductive health information	sexual health information
intersectional approach	mtct of hiv	reproductive health issues	sexual health intervention
intersectionality	mucosal transmission	reproductive health knowledge	sexual health interventions
intervention/treatment	multiple partners	reproductive health needs	sexual health inventory
intimate partner	multiple sex partners	reproductive health outcomes	sexual health inventory for men
intimate partner abuse	multiple sexual partner	reproductive health service	sexual health inventory for men (shim)
intimate partner homicide	multiple sexual partners	reproductive health services	sexual health knowledge
intimate partner violence	multiple sexual partnership	reproductive right	sexual health needs
intimate partner violence (ipv)	multiple sexual partnerships	reproductive rights	sexual health outcomes
intimate partner violence against women	national hiv behavioral surveillance	respondent-driven sampling	sexual health program
intimate partner violence during pregnancy	new hiv diagnoses	reversible contraception	sexual health promotion
intimate partner violence perpetration	new hiv infections	reversible contraceptive	sexual health service
intimate partner violence prevention	number of sex partners	reversible contraceptives	sexual health services
intimate partner violence screening	number of sexual partners	revictimization	sexual health.
intimate partner violence victimization	occupational segregation	rights of women	sexual healthcare
intimate partners	option b+	risk behaviour	sexual hiv transmission
intimate violence	oral pre-exposure prophylaxis	risk behaviours	sexual initiation
ipv perpetration	oral pre-exposure prophylaxis (prep)	risk of hiv acquisition	sexual intimate partner violence
ipv prevalence	oral sex	risk reduction intervention	sexual knowledge
ipv screening	parental violence	risk sexual behavior	sexual network
ipv victimization	participation of women	risk sexual behaviors	sexual networks
ipv victims	partner abuse	risk sexual behaviours	sexual partner
key populations	partner aggression	risky sex	sexual partners
knowledge about hiv	partner notification	sexual transmission of hiv	sexual partnership
knowledge about hiv/aids	partner type	sexual transmission.	sexual partnerships
sexual relationships	sexual risk factor	sexual victimization	sexual practice
sexual reproductive health	sexual risk factors	sexual violence	sexual practices
sexual revictimization	sexual risk reduction	sexual violence against women	sexually transmitted diseases (stds)
sexual rights	sexual risk taking	sexual violence victim	sexually transmitted infection
sexual risk	sexual risks	sexuality education	sexually transmitted infection (sti)
sexual risk behavior	sexual risk-taking	sexually transmissible infection	sexually transmitted infection prevention
sexual risk behaviors	sexual risk-taking behavior	sexually transmissible infections	sexually transmitted infection testing
sexual risk behaviour	sexual risk-taking behaviors	sexually transmitted disease (std)	sexually transmitted infections
sexual risk behaviours	sexual transmission	sexually transmitted diseases (std)	sexually transmitted infections (sti)
sexually transmitted infections (stis)	witnessing domestic violence	unaid	
sexually transmitted infections.	woman abuse	underrepresentation of women	
shim score	women abuse	under-representation of women	
single-dose nevirapine	women and girls	undiagnosed hiv	
spousal violence	women and politics	unintended pregnancies	
spouse abuse	women candidates	unintended pregnancy	
srh services	women director	unknown hiv status	
srhr	women directors	unmet need for contraception	
status disclosure	women empowerment	unmet need for family planning	
status of women	women entrepreneur	unpaid work	
std clinic	women entrepreneurs	unprotected anal intercourse	
std prevention	women entrepreneurship	unprotected anal intercourse (uai)	
std risk	women executives	unprotected anal sex	
std/hiv	women in computing	unprotected sex	
stds	women in leadership	unprotected sexual intercourse	

Gender Equality		
SDG 5		
steady partner	women in management	unprotected vaginal sex
sti clinic	women in politics	unsafe abortion
sti diagnosis	women in science	unsafe sex
sti incidence	women in stem	unwanted pregnancies
sti knowledge	women leader	unwanted sex
sti prevalence	women leaders	use of condom
sti prevention	women living with hiv	use of condoms
sti risk	women manager	use of contraception
sti screening	women managers	vaginal intercourse
sti testing	women on board	vaginal microbicide
sti transmission	women on boards	vaginal microbicides
sti/hiv	women survivors	vaginal sex
sti/hiv prevention	women victims	vertical hiv
stis and hiv	women with hiv	vertical hiv transmission
survivors of domestic violence	women's agency	vertical transmission of hiv
syphilis infection	women's autonomy	victimization and perpetration
teen dating	women's career	victims of domestic violence
teen dating violence	women's employment	victims of sexual abuse
teen dating violence (tdv)	women's empowerment	victims of sexual violence
the #metoo movement	women's entrepreneurship	victims of violence
the glass ceiling	women's human rights	violence against
the women's movement	women's leadership	violence against women
topical microbicide	women's movement	violence against women (vaw)
traditional gender role	women's movements	violence against women and girls
traditional gender roles	women's participation	violence and abuse
transactional sex	women's representation	violence during pregnancy
transgender women	women's right	violence experiences
transgender women (tgw)	women's rights	violence exposure
transmissible infection	women's sexual health	violence in women
transmissible infections	women's status	violence intervention
transmission cluster	ymsm	violence perpetration
transmission clusters	young men who have sex with men	violence prevalence
transmission of hiv	young men who have sex with men (ymsm)	violence prevention
transmission risk behavior	young msm	violence screening
transmitted drug resistance	voluntary counseling	violence victimization
treatment as prevention	voluntary counseling and testing	violence victims
treatment as prevention (tasp)	voluntary counseling and testing (vct)	violent relationships
types of violence	voluntary counselling	vmmc

Clean Water and Sanitation			
SDG 6			
sequencing batch reactor (sbr)	epanet	wastewater reuse	vertical flow constructed wetland
waste activated sludge (was)	wastewater remediation	water vulnerability	contaminated groundwater
wastewater treatment plant (wwtp)	solar desalination	and hygiene (wash)	agricultural non-point source pollution
water framework directive (wfd)	activated sludge model	untreated wastewater	nonpoint source pollution
surface flow constructed wetland	sustainable water management	urban water management	water quality index
drinking water treatment plant	maximum daily load	contaminated waters	drinking water treatment
europaean water framework directive	dairy wastewater	integrated water resources management	storm water management
the water framework directive	pharmaceutical wastewater	agricultural non-point source	subsurface flow constructed wetlands
irrigation water use efficiency	dyeing waste	irrigation method	secondary effluent
sequencing batch reactors	drinking water source	conventional activated sludge	irrigation strategy
oil wastewater	municipal wastewater treatment plant	wastewater treatment plant effluent	water quality guideline
drinking water distribution system	simulated wastewater	irrigation scheduling	desalination membrane
constructed wetlands (cws)	the eu water framework directive	water management model	wastewater reclamation
wetland restoration	water arsenic	water governance	activated sludge (as)
wwtp effluent	wastewater purification	irrigation methods	biological wastewater
irrigation strategies	water quality index (wqi)	wastewater treatment processes	water security
dye wastewater	bottled water	irrigation efficiency	lake water quality
drinking water distribution	mill wastewater	swmm	municipal wastewater treatment
real wastewater	dye waste	dye wastewater treatment	water, sanitation and hygiene
river restoration	swine wastewater	river water quality	wastewater treatment systems
wastewater treatment plants (wwtps)	wine wastewater	water quality indicator	constructed wetlands
contaminated wastewater	water productivity	wastewater effluents	water, sanitation, and hygiene
olive mill wastewater	groundwater vulnerability	water quality indicators	rainwater harvesting system
deficit irrigation	saline wastewater	water management practice	water treatment technology
water-saving irrigation	wwtps	river management	wastewater effluent
non-point source pollution	sustainable groundwater	organic wastewater	groundwater irrigation
regulated deficit irrigation	urban wastewater treatment	sanitation and hygiene	basin management
regulated deficit	horizontal subsurface flow	industrial wastewater treatment	water sustainability
water-saving	surface flow constructed wetlands	integrated water resources	urban water supply
waste activated sludge	industry wastewater	synthetic wastewater	contaminated drinking water
textile wastewater	wastewater treatments	drinking water production	textile wastewater treatment
stream restoration	tmdl	water treatment technologies	olive mill wastewater (omw)
urban wastewater	aerobic sequencing batch reactor	stormwater management	constructed wetland (cw)
subsurface flow constructed wetland	irrigation water use	water management practices	point source pollution
water savings	wastewater treatment plants (wwtp)	greywater	efficient irrigation
eu water framework directive	constructed wetland system	storm water management model	drinking water quality
groundwater nitrate	rainwater harvesting	water saving	treatment wetland
industrial wastewater.	rainwater harvest	wqi	desalination systems
drinking water sources	horizontal subsurface	raw wastewater	bank filtration
domestic wastewater treatment	desalination system	arsenic in drinking water	crop water productivity
total maximum daily load	conventional wastewater treatment	stream water quality	river basin management
groundwater remediation	water management strategies	management of water resources	influent and effluent
drinking water distribution systems	water framework directive	water framework	contamination of groundwater
dyeing wastewater	sequencing batch reactor	groundwater management	wastewater irrigation
drinking water treatment plants	hygiene (wash)	agricultural water management	coking wastewater
tannery wastewater	irrigation schedule	biological wastewater treatment	wastewater management
municipal wastewater treatment plants	drip irrigation system	drinking water standard	water resources allocation
open defecation	sludge volume index	sustainable water resources	reverse osmosis desalination
groundwater pollution	plating wastewater	saline waste	drinking water resource
multi-effect distillation	influent wastewater	water disinfection	wastewater system
irrigation technology	multi-reservoir	water allocation	wastewater quality
total maximum daily load (tmdl)	water quality monitor	seawater desalination	sequencing batch reactors (sbrs)
drinking water safety	nitrogen and phosphorus removal	irrigation management	irrigation water management
sequential batch reactor	sustainable water resources management	drinking water treatment process	nitrate contamination
drinking water standards	cod removal efficiency	water management system	oil waste
regulated deficit irrigation (rdi)	sewage treatment plant (stp)	wastewater pollution	surface water quality
disinfection byproducts	water nitrate	rain-fed agriculture	wastewater treatment process
disinfection byproduct	water quality deterioration	treatment of wastewater	sequencing batch
actual wastewater	wwtp effluents	reuse water	water infrastructure
wastewater systems	water and sanitation	processing wastewater	groundwater contaminant
horizontal subsurface flow constructed wetland	nutrients removal	constructed wetland	sewage treatment plants (stps)
domestic wastewater	desalination performance	removal of cod	sanitation service
sanitation system	water treatment processes	sustainable groundwater management	water harvesting
drinking water reservoir	drinking water resources	water resources planning	biological nutrient removal
desalination technologies	water scarce	river engineering	municipal wwtp
sanitation services	wastewater streams	water treatment sludge	sanitation facilities
water pollutant	water quality variables	water management plan	olive mill waste
water quality monitoring.	drinking water supply	sustainable water	oil wastewater treatment
improved sanitation	water security.	aerobic wastewater treatment	urban wastewater treatment plant
water policy	arsenic in groundwater	full irrigation	desalination process
water desalination system	soil and water conservation measure	safe drinking water	irrigation water productivity
treated municipal wastewater	water quality degradation	untreated waste	treatment wastewater
drinking purpose	wastewater discharge	water supply systems	ro desalination
iwm	sludge retention time	influent cod	synthetic waste
water productivity (wp)	contaminated ground	nitrogen removal efficiency	potable reuse
hospital wastewater	thermal desalination	charge stand	water quality assessment
refinery wastewater	sludge retention	influent	desalination unit
effluent cod	irrigation schedules	deficit irrigation (di)	full-scale wastewater treatment plant
brackish water desalination	biological nitrogen removal	irrigation water use efficiency (iwue)	water conservation measures
water recycling	activated sludge system	electrocoagulation (ec)	transboundary river
effluent wastewater	smart irrigation	sewage treatment plants	rainfed agriculture
water quality monitoring	drinking water system	water resources planning and management	groundwater arsenic
transboundary water	final effluent	moving bed biofilm	water quality improve
pollution water	treated wastewater	water treatment systems	water pollutants
chemical oxygen demand (cod) removal	water treatment application	runoff water quality	tn removal
non-point source	source pollution	irrigation water quality	anaerobic sequencing batch reactor
aquaculture wastewater	water resource management	model wastewater	chemical wastewater
quality of drinking water	agricultural wastewater	total suspended solids (tss)	water harvest
dwt	desalination technology	water pollution.	drinking and irrigation
storm water management model (swmm)	household water treatment	water waste	water quality improvement
drinking water disinfection	water demand management	groundwater contamination	drinking purposes
slaughterhouse wastewater	nitrification	waste water treatment plant	water quality guidelines
water quality indices	water quality status	water effluent	wastewater treatment technologies
wastewater treatment system	soil and water conservation measures	enhanced biological phosphorus removal	industrial wastewaters
membrane bioreactor (mbr)	water quality change	hydraulic loading rate	chloramination
wastewater treatment technology	water quality data	surface water treatment	treatment wetlands
discharge standard	water and wastewater treatment	rainwater harvesting systems	water effluents

Clean Water and Sanitation			
SDG 6			
aerobic granular sludge (ags)	low impact development	urban stormwater	distillery wastewater
textile effluent	water quality and quantity	industrial wastewater treatment plant	water, sanitation and hygiene (wash)
surface drip	disinfection by-products	biological wastewater treatment process	water quality evaluation
water resource planning	scarcity of water	treated effluents	water quality monitoring system
water resource allocation	solar distillation	activated sludge reactor	simulated waste
fecal indicator bacteria	wastewater discharges	sanitation infrastructure	clean water and sanitation
activated sludge floc	sanitation and hygiene (wash)	municipal sewage treatment	organic matter removal
conventional wastewater treatment plant	disinfection byproducts (dbps)	sustainable irrigation	wastewater influent
advanced water treatment	water treatment applications	olive mill	metal wastewater
water supply system	disinfection by-products (dbps)	freshwater production	drastic model
reverse osmosis (ro) desalination	contamination of water	removal of arsenic	water trade
anaerobic membrane	rainwater harvesting (rwh)	water managers	ballast water treatment
anaerobic membrane bioreactor	riverbank filtration	reclaimed wastewater	water treatment membrane
non-point source (nps)	pharmaceutical waste	dairy waste	waste-water treatment
water infrastructures	moving bed biofilm reactor	sludge floc	water contaminant
agricultural irrigation	non-potable	good ecological status	urban water system
groundwater contaminants	sanitary sewer	maximum contaminant level	water user
sewage wastewater	quality of groundwater	polluted water	real wastewater treatment
water quality class	water treatment efficiency	water quality modeling	water quality management
solar desalination system	electroplating wastewater	fecal indicator	benchmark simulation model
submerged membrane	membrane desalination	aerobic granule	groundwater vulnerability assessment
wastewater characteristic	wastewater treatment facilities	anaerobic wastewater	source water quality
tn and tp	simultaneous nitrification	drinking water guidelines	wetland protection
activated sludge wastewater treatment	biochemical oxygen demand (bod5)	% cod removal	non-point
cod reduction	codmn	phenol wastewater	phenolic wastewater
hydraulic retention time (hrt)	water treatment plant (wtp)	runoff pollution	water scarcity
microbial water quality	water policies	radioactive wastewater	deficit irrigation strategies
haloacetic acids	and wastewater treatment	nh4+-n removal	swine wastewater treatment
water quality characteristics	water treatment facilities	oil mill wastewater	olive mill wastewaters
uv254	lake restoration	cod removal	water management policies
mixed liquor suspended solids	groundwater protection	clean drinking water	sanitary sewer overflow
irrigation purpose	safe drinking	simultaneous nitrification and denitrification	waste-water
codcr	basic sanitation	aerobic granules	wastewater characteristics
water quality issues	sanitation systems	sustainable water resource management	textile industry wastewater
organic wastewater treatment	grey water	tmdls	cod/n
efficient water use	disinfection by-product	surface water contamination	cod and bod
printing and dyeing wastewater	water management	suspended solids (ss)	sewer overflows
tile effluent	integrated water resource management	aerobic activated sludge	process wastewater
reuse wastewater	defluoridation	water resources management	sand filtration
wastewater use	biological phosphorus removal	irrigation amount	activated sludge process
receiving water bodies	sewage system	solar disinfection	nitrogen removal process
water quality models	production wastewater	wastewater flow	subsurface drip
partial nitrification	desalination processes	virtual water trade	submerged membrane bioreactor
monitoring water quality	assessment of water quality	anaerobic wastewater treatment	pit latrines
municipal wastewater effluent	sustainable use of water	treated wastewaters	direct potable reuse
alternative water	treated effluent	turbidity removal	wastewater collection
secondary wastewater	wastewater samples	virtual water	pollutant loads
treated wastewater effluent	sustainable wastewater treatment	sludge reduction	biological water quality
livestock wastewater	drinking water supplies	source of drinking water	mlvss
seawater reverse osmosis	conventional water treatment	best management practices (bmps)	polluted waters
real textile wastewater	coagulation/flocculation	water meter	water treatment methods
water-quality	arsenic removal	water guidelines	water quality simulation
acid wastewater	water quality standard	haloacetic acid	treated wastewater (tww)
activated sludge systems	sustainable water use	drinking-water	excess sludge
decentralized wastewater	desalination plants	crop evapotranspiration (etc)	nutrient removal
water reclamation	tertiary treatment	urban stormwater management	treatment of effluent
water reuse	water quality changes	soil and groundwater	sewage systems
water quality model	pollution of water	alternative water source	groundwater treatment
coagulation-flocculation	integrated water management	groundwater quality	wastewater treatment plant effluents
water standard	total nitrogen removal	domestic wastewater treatment plant	water fluoride
good water quality	effluent organic matter	wine waste	water quantity and quality
greywater treatment	wwtp	secondary effluents	membrane distillation (md)
treatment sludge	nonpoint source	aerobic granular	industrial wastewater discharge
water quality variation	treatment of municipal wastewater	trihalomethanes (thms)	water quality impairment
aerobic membrane bioreactor	water allocations	desalination plant	sewage treatment plant
riparian restoration	drinking water systems	groundwater quality assessment	horizontal subsurface flow constructed wetlands
framework directive	water resources system	aerobic granular sludge	stormwater treatment
water desalination	advanced wastewater treatment	harvested rainwater	drinking water reservoirs
reclaimed water	cod concentration	river basin management plan	subsurface drip irrigation
efficient use of water	management of irrigation	sustainable management of water resources	sbr system
wastewater treatment efficiency	tannery waste	irrigation purposes	aquaculture waste
domestic sewage treatment	pit latrine	harvesting water	membrane bioreactors
swine waste	wastewater sample	scale waste	ammonium removal
non-point sources	chemical water quality	waste water treatment plants	rural water
cod removal rate	arsenic contamination	reuse of wastewater	wwt
drinking water samples	agricultural water use	wastewater treatment facility	domestic effluent
textile waste	wastewater treatment applications	tile waste	irrigation water supply
discharge standards	surface water pollution	wastewater pollutant	ecological water
constructed wetland systems	water supply and demand	surface drip irrigation	diffuse pollution
wastewater infrastructure	water management systems	aquifer vulnerability	drinking water well
low impact development (lid)	mbr system	water treatment process	efficiency of wastewater treatment
sludge production	water health	complex wastewater	desalination energy
swro	humidification-dehumidification	water remediation	activated sludge processes
nps pollution	wastewater sludge	water treatment and reuse	nitrate in groundwater
integrated water resources management (iwrn)	irrigation technologies	sludge flocs	soluble microbial product
piggery wastewater	oil wastewater	managed aquifer recharge	treatment performance
vertical flow constructed wetlands	water standards	wastewater (ww)	water quality criteria
mixed liquor suspended solid	petrochemical wastewater	dwtps	wetland system
sustainable water supply	treatment and reuse	biological activated carbon	artificial wastewater
drinking water sample	water treatment facility	wastewater recycling	water users
water sludge	household water	water qualities	nonpoint
effluent water quality	water quality analysis	biological oxygen demand (bod)	on-site wastewater
water/wastewater	sludge volume	biological oxygen demand	pollutant load
european water framework directive (wfd)	water quality standards	mixed liquor	household drinking water
settleability	nitrate pollution	salinity wastewater	decentralized wastewater treatment
dbp formation	water, sanitation, and hygiene (wash)	groundwater use	pollution of groundwater
vfcw	polluted groundwater	mabbr	average removal rate

Clean Water and Sanitation		
SDG 6		
desalinated water	irrigation performance	municipal wastewaters
effluent quality	sludge volume index (svi)	textile wastewaters
enhanced biological phosphorus removal (ebpr)	tp removal	electrocoagulation process
permeable reactive barrier	water demands	microbial source tracking
water safety	biological nutrient removal (bnr)	color removal
disinfection of water	optimal irrigation	granular sludge
total maximum daily loads	drinking water contamination	irrigation practices
water treatment system	biological waste	municipal wastewater
partial nitrification	winery wastewater	desalination membranes
water contaminants	haloacetic acids (haas)	water conservation practices
zero liquid discharge	nitrogen removal rate	
full-scale wwtp	sequencing batch reactors (sbr)	
wastewater treatment performance	water meters	
sludge retention time (srt)	drinking waters	
anmbr	conventional activated sludge process	
residual sodium carbonate	biological aerated filter	
urban wastewater treatment plants	total suspended solid	
sustainable use of water resources	fluoride in drinking water	
permanganate index	wastewater treatment methods	
bod5	monitoring of water quality	
bod5/cod	brewery wastewater	
total suspended solids	safe water	
crop water requirement	agricultural water resource	
chemical wastewater treatment	drinking water treatment plants (dwtps)	
finished water	water footprint	
electroplating waste	potable water supply	
water safety plan	ebpr	
trihalomethanes	petrochemical waste	
safety of drinking water	real industrial wastewater	
desalination of seawater	treatment water	
bioretention	anoxic/oxic	
water treatment residual	wfd	
nitrogen removal performance	water quality parameter	
soluble microbial products	water quality prediction	
toilet flushing	wastewater plant	
septic tanks	acidic wastewater	
anoxic/aerobic	event mean concentration	
use of water resources	sewage effluent	
mbr process	discharge limit	
seawater reverse osmosis (swro)	advanced treatment process	
water quality impact	onsite wastewater	
improved water quality	water risk	
drinking water treatment processes	oil mill waste	
crop irrigation	trihalomethane	
tss removal	water for irrigation	
multi-reservoir system	discharge limits	
volatile suspended solids	transboundary river basin	
water shortages	crop evapotranspiration	
water membrane	contaminated water	
water management plans	waste-activated sludge	
chemical oxygen demand removal	water management strategy	
municipal sewage treatment plant	tn removal efficiency	
water quality improvements	waste water treatment	
effluent concentrations	sewage treatment process	
anammox process	wastewater pollutants	
coagulant dosage	drinking and irrigation purposes	
mill waste	tertiary wastewater	
sewer overflow	wastewater source	
uasb reactor	water supply infrastructure	
toilet flush	autotrophic denitrification	
water demand	groundwater sample	
antibiotic wastewater	arsenic drinking water	
surface-flow constructed wetland	direct contact membrane distillation	
wetland treatment	water planning	
olive oil mill wastewater	mixed liquor suspended solids (mlss)	
greywater reuse	direct contact membrane	
drinking water fluoride	groundwater and surface water	
septic tank	effluent treatment plant	
hydraulic retention times	wastewater disinfection	
heavy metal wastewater	activated sludge treatment	
swmm model	hydrology and water quality	
wastewater composition	water management decisions	
nutrient removal efficiency	indicators of water quality	
wastewater treatment	sludge blanket	
moving bed biofilm reactor (mbbr)	international river	
pollutants removal	practical wastewater treatment	
water quality modelling	anoxic-oxic	
point-source pollution	industrial waste water	
phosphate accumulating organism	irrigation practice	
surface water and groundwater	reverse osmosis (ro)	
real municipal wastewater	removal rate of cod	
conventional activated sludge (cas)	nitrate removal	
management of water	total dissolved solids (tds)	
water desalination plant	ballast water management	
recycled water	natural coagulant	
water and wastewater	agricultural water	
water quality parameters	variation of water quality	
bottled waters	wetland systems	
water protection	permeate quality	
water quality indexes	phosphate accumulating organisms	
ewater source	upflow anaerobic sludge blanket	
aerated filter	water quality impacts	
nitrogen wastewater	water price	
drinking water supply system	omww	
water crisis	treatment train	
sludge waste	purification of wastewater	
fluoride removal	biological treatment process	
domestic sewage	wastewater contaminant	
reactive barrier	dye-containing wastewater	
desalination water	drinking water wells	
efficient water management	fecal contamination	
groundwater samples	phosphorus removal	
effluent water	allocation of water	
stormwater runoff	urban water cycle	
urban storm	on-site wastewater treatment	
surface flow wetland	dyes wastewater	

Affordable and Clean Energy			
SDG 7			
polymer solar cells (piscs)	photocatalytic hydrogen evolution	parabolic trough collector	integration of renewable energy
lithium-7sulfur	polymer electrolyte fuel cells	n719	boquet cells
lithium ion batteries (liba)	vehicle-to-grid	solar photovoltaic (pv) system	hybrid renewable energy
bulk heterojunction solar cells	wind power penetration	building integrated photovoltaic	parallel hybrid
sodium-ion batteries (siba)	intermediate temperature solid oxide fuel cells	fuel cell operation	high penetration of renewable energy
photocatalytic h2 evolution	fuel cell hydrogen	direct methanol fuel cells	wind power generator
bulk heterojunction solar cell	proton exchange membrane fuel cell (pemfc)	perovskite photovoltaic	trough collector
organic solar cells (oscs)	renewable energy consumption	renewable energy integration	photovoltaic efficiency
short-circuit current density (sc)	plug-in hybrid electric vehicles	parabolic trough collector	enhanced geothermal system
i-solc	lithium-ion battery	n719	electric vehicle charging station
sodium-ion battery	photovoltaic (pv) generation	solar photovoltaic (pv) system	lithium metal anode
lithium-ion battery anode	lc stack	lithium-sulfur batteries	partial shading condition
electrocatalytic hydrogen evolution	microbial fuel cell (mfc)	hydrogen-to-hydrogen	pb7-in
membrane electrode assembly (mea)	sodium ion battery	polymer donor	methanol fuel cells
anode-supported	solar cell design	lens-motor cells	fuel cell cathode
lithium polysulfide	photovoltaic capacitor	renewable energy (re)	biomass pyrolysis
lithium polysulfides	distributed photovoltaic	i-ion batteries	wind power forecasting
dye-sensitized solar cells	oap solar cells	hydrogen evolution reactions	pv panels
hydrogen storage properties	anode lithium	plasma facing component	floating wind
na-ion batteries	it-solcs	pv energy	biodiesels
photocatalytic h2 production	initial coulombic efficiency	hvac grid	pv power plant
proton exchange membrane fuel cells (pemfcs)	short circuit current density (sc)	direct methanol fuel cells (dmfcs)	plasma facing components
lithium-7sulfur batteries	renewable energy power	bipolar plates	the maximum power point tracking (mppt)
planar perovskite solar cell	silicon heterojunction solar cell	bulk heterojunction (bhi)	dye sensitized solar cells (dsscs)
sodium ion batteries	dmfcs	solar fuels	solid oxide fuel cells (sofc)
anode-support	photovoltaic (pv) power	wind power prediction	sulfur loading
intermediate temperature solid oxide fuel cell	sofc anode	c-si solar cells	pv battery
lithium-sulfur battery	organic photovoltaic (opv)	hydrothermal liquefaction	electrochemical hydrogen evolution
high voltage direct current (hvdc)	plug-in electric vehicle	silicon heterojunction solar cells	wind turbines (wts)
photovoltaic performances	zero energy building	large-scale wind power	enhanced geothermal
hybrid electric vehicle (hev)	photovoltaic parameters	distributed renewable energy	renewable energy application
sulfur cathode	hybrid photovoltaic	photovoltaic generation	polymer electrolyte fuel cell (pefc)
intermediate temperature solid oxide	fuel cell model	maximum power point (mpp)	lithium sulfur batteries
membrane electrode assembly (mea)	methanol steam reforming	photocatalytic hydrogen generation	hydrogen production
lithium-sulfur (l-s) batteries	vsc-hvdc	concentrating solar power	fuel cell membrane
l-s batteries	hydrogen storage alloy	polymer electrolyte membrane fuel cell (pemfc)	ground heat exchanger
pv71bm	vehicle to grid	organic photovoltaic cells	generator (gens)
organic photovoltaic device	edge localized mode	pefcs	zinc-air batteries
photocatalytic hydrogen production	renewable energy sources (ress)	plug-in hybrid electric vehicles (phevs)	high-performance anode material
fuel cell (fc)	wind energy conversion system (wecs)	methanol permeability	o2h2cm
dye-sensitized solar cell (dssc)	lithium storage performance	dark fermentation	stable perovskite solar cells
cis solar cell	chovoltatic thermal	high open-circuit voltage	anode catalyst
membrane electrode assembly	lithium-ion battery (lib)	zero energy buildings	integration of renewable energy sources
photovoltaic (pv) panel	wind power integration	photovoltaic thermal	limonization/delimonization
direct methanol fuel cell (dmfc)	intermittent renewable energy	fill factor (ff)	pemfcs
confined	proton exchange membrane (pem) fuel cell	fuel cell performance	chemical hydrogen storage
planar perovskite solar cells	open circuit voltage (voc)	hydrogen storage alloys	biodiesel blends
energysplus	assex upgrade	photovoltaic plant	polymer electrolyte fuel cell
wind turbine (wt)	cathode catalyst layer	hybrid renewable energy system	lenslet solar cell
fullerene acceptors	dye sensitized solar cells	green roofs	electric buses
generation of renewable energy	non-fullerene	permanent magnet synchronous generator (pmsg)	hi-2a
storo-cometad	anode support	biodiesel synthesis	quantum dot solar cell
polymer electrolyte membrane fuel cells	mw wind turbine	photovoltaic (pv) cell	sofc cathode
zn-air	pv power generation	integration of renewable energy	pa1ae2 solar cell
metal-air batteries	concentrated solar power (csp)	boquet cells	polymer electrolyte membrane (pem)
air-air batteries	fullerene acceptor	hybrid renewable energy	renewable energy sources (res)
organic photovoltaic devices	high-performance anode	parallel hybrid	utilization of renewable energy
electrolyte membrane fuel cells	short circuit current density	high penetration of renewable energy	open-circuit voltage (voc)
zn-air batteries	high sulfur loading	wind power generate	grid-connected photovoltaic (pv)
li72s batteries	i-ion batteries	trough collector	series hybrid
hydrogen evolution rate	integrated photovoltaic	photovoltaic efficiency	non-fullerene acceptors
bulk perovskite solar cells	hybrid powertrain	enhanced geothermal system	reversible capacitors
hydrogen storage capacity	grid-connected photovoltaic	electric vehicle charging station	high voltage direct current
photovoltaic (pv) modules	shuttle effect	lithium metal anode	proton exchange membrane (pem)
hybrid electric vehicles (hevs)	solar fuel	partial shading condition	perfc stack
wind power output	photovoltaic (pv) array	pb7-in	intermediate-temperature solid oxide fuel cell
photovoltaic inverter	hydrogen storage materials	methanol fuel cells	fermentative hydrogen
sulfur host	high-voltage direct current	fuel cell cathode	offshore wind power
membrane electrode assemblies	sofc stack	biomass pyrolysis	plug-in hybrid electric vehicle (phev)
vehicle-to-grid (v2g)	i-ion batteries (liba)	wind power forecasting	doubly fed induction generator (dfic)
pb7m	biomass crop	pv panels	organic photovoltaics
biodiesel yield	wind farm	floating wind	hydrogen storage performance
solar cell devices	non-fullerene acceptor	biodiesels	photovoltaic power plant
air diffusion layer (adl)	battery diodes	pv power plant	lens turbine
wave energy converter (wec)	variable speed wind turbine	plasma facing components	partial shading conditions
catalytic h2 production	sulfur battery	the maximum power point tracking (mppt)	charging infrastructure
hybrid solar cell	hydrogen storage	dye sensitized solar cells (dsscs)	stimulated reservoir volume
photovoltaic (pv) module	wind power forecast	photocatalytic hydrogen generation	polymer electrolyte membrane fuel cell
floating offshore wind turbine	organic photovoltaic cell	concentrating solar power	high voltage dc
lithium ion batteries	electromobility	polymer electrolyte membrane fuel cell (pemfc)	bonneted heat exchanger
l-s battery	the maximum power point tracking	organic photovoltaic cells	light oil reservoir
mfc performance	monopile	pefcs	multi-junction solar cell
floating offshore wind	plug-in electric vehicles (pevs)	plug-in hybrid electric vehicles (phevs)	inorganic perovskite solar cell
wave energy converters	hydrogen evolution activity	methanol permeability	stability of perovskite solar cells
floating wind turbine	catalytic hydrogen production	dark fermentation	wind turbine system
catalytic hydrogen evolution reaction	photovoltaic (pv) panels	high open-circuit voltage	electric vehicle levit charging
lithium sulfur	boquet cell	zero energy buildings	photovoltaic (pv) systems
hybrid solar cells	plug-in hybrid electric vehicle	photovoltaic thermal	solar cell efficiency
wind turbine model	nonfullerene acceptor	fill factor (ff)	pyrolysis of biomass
bulk-heterojunction	wind power generation system	fuel cell performance	ground source heat pump
plug-in electric vehicles	concentrated solar power	hydrogen storage alloys	fuel cell applications
zn-air battery	doubly-fed induction generator (dfic)	photovoltaic plant	energy efficiency optimization
coil solar cell	building integrated photovoltaic	hybrid renewable energy system	ground heat exchange
solid oxide fuel cells (sofcs)	fuel cell operation	green roofs	lithium metal batteries
microbial fuel cells (mfcs)	direct methanol fuel cells	biodiesel synthesis	ethanol permeability
pb7	perovskite photovoltaic	pefcs	mfc-hvdc
fuel cell hybrid	renewable energy integration	photovoltaic (pv) cell	hybrid renewable

Affordable and Clean Energy			
SDG 7			
renewable energy applications	air cathode	galvan2 (ciga)	wave energy converters (wecs)
hydrogen storage material	pv device	high voltage direct current (hvdc) transmission	power forecasting
isopar plate	diesel veld	wind resources	net present cost
offshore wind farms	perovskite absorber	biodiesel fuel	current turbine
am1.5q	wind generators	efficiency of photovoltaic	solar thermal energy
organic photovoltaics (opvs)	concentrating solar power (csp)	cuin,galise2	grid side converter
thermophotovoltaic	inorganic perovskite solar cells	pv arrays	parallel hybrid electric vehicle
photocatalytic h2	ground source heat	concentrator photovoltaic	photovoltaic characteristics
high-voltage direct current (hvdc)	li-ion battery anode	photovoltaic (pv) cells	large-scale wind farm
photovoltaic (pv) inverter	wind turbine power	pv-battery	photovoltaic technologies
catalytic hydrogen generation	test blanket	photovoltaic inverters	uncertainty of wind power
photovoltaic materials	lithium-ion battery pack	power conversion efficiencies	flexible solar cell
gas diffusion layer	energy efficiency measures	hydrogen evolution performance	rotor side converter
li dendrite	electric bus	photovoltaic-thermal	sodium-ion batteries
solid-state dye-sensitized solar cell	solar photovoltaic (pv)	silicon hybrid	polymer electrolyte membrane fuel cells (pemfc)
edac	photovoltaic system	hydc systems	thp-film solar
grid-connected photovoltaic system	lithiation process	methanol crossover	w7-x
light resonator	desert and biodiesel	quantum dot sensitized solar cell	irreversible capacity
photovoltaic material	pv devices	air-cathode	lithium ion diffusion
wendelstein 7-x	photoanodic layer	sei layer	renewable energy conversion
inverted perovskite solar cell	bio-ethanol	mppt method	photovoltaic installation
ev charger	counter electrode (ce)	renewable energy generation	efficiency of solar cells
thin-film solar cells	battery anode	bioenergy crops	bulk-heterojunction solar cell
mtx	renewable energoy storage	incremental conductance	fuel cell vehicles
solar power generation	proton-exchange membrane fuel cell	photovoltaic conversion efficiency	is solar cells
photovoltaic power generation	permc system	thin-film solar cell	short-circuit current density
artificial photosynthesis	solar electrolyte interphase (sei)	metal-air	photovoltaic systems
lth	lithium-ion cells	low	charging load
lithium-ion cell	na-ion battery	photovoltaic characteristic	inverted polymer solar cells
solar thermal collector	primary energy saving	heterojunction solar cells	light oil reservoirs
microbial electrolysis cell	shale reservoirs	microbial electrolysis	reservoir space
dye sensitized solar cell	polymer electrolyte fuel cells (pemcs)	turbine tower	multi-terminal hvdc
lithium-ion battery anodes	electrocatalytic hydrogen evolution reaction	multi-junction solar cells	wind power
silicon anode	solar electrolyte interface	li-ion battery	photovoltaic conversion
offshore wind turbines	inverted perovskite solar cells	pv cells	hybrid-electric
plasma-facile component	wave energy converter	turbine wake	biodiesel combustion
pdh1	green roof	galvan2 solar cells	solar hydrogen production
perturb and observe	cell performances	sulfur cathodes	tubular solid oxide fuel cell
direct ethanol fuel cell	fermentation hydrogen production	high discharge capacity	photovoltaic plants
shale gas reservoirs	cathode catalyst	butadiol	solar cell application
polymer electrolyte membrane (pem) fuel cell	wind turbine gear	observe (pbo)	wind turbine tower
ev charging station	biofuel feedstock	bio-fuel	formic acid fuel cell
sofc system	carbon-exchange membrane fuel cells	maximum power point tracker	lithium-ion batteries (liba)
wind power fluctuation	thermal collectors	theoretical specific capacity	quality reservoir
cde solar cell	fuel cell test	am 1.5q	photovoltaic cells
maximum power point tracking (mppt) algorithm	energy efficiency improvement	iodation	spent lithium-ion batteries
light resonators	solar cell performance	floating offshore wind turbines	high-voltage dc
levelized cost of energy	energy efficiency measure	reversible hydrogen storage	grid-side converter
national renewable energy laboratory	wind power plants	renewable energy development	polymer solar cell
air battery	inverted perovskite	doubly-fed induction generator	wind resource
fuel cell anode	aerial shading	e-fuel cell	li-ion cell
renewable energoy laboratory	crystalline silicon solar cells	affordable and clean energy	oscillating water column (owc)
sodium storage	wind power system	photovoltaic si	high pce
area specific resistance	dye-sensitized solar cells (dsscs)	nonfluorene acceptors	photovoltaic modules
bipv	biodiesel blend	am1.5	floating wind turbines
integrated photovoltaics	solar oxide fuel cell (sofc)	concentrated solar power plant	fuel cell electric vehicle
perturb and observ	v2a	ecodesign	electric vehicle charging
lithium ion battery	perovskite solar cells (pscs)	biomass fuels	hydc cable
lithium dendrite	hybrid perovskite solar cell	anion exchange membrane fuel cell	photovoltaic power generation system
mpcc algorithm	internal reforming	photovoltaics	solar tracking
ethanol fuel cells	cde solar cells	proton-exchange membrane	pv generation
lipsof cathode	test pyrolysis	wind turbine control	parasitic trough
solar cell applications	blanket module	hybrid perovskite solar cells	dfga
li metal anode	li-ion battery	cuin,galise	solid electrolyte interphase
solar plates	test blanket module	oscillating water column	building-integrated photovoltaic
photovoltaic grid	po61tm	lithium-sulfur	electromobility shift assay
maximum power point tracking (mppt) control	viral reservoir	onshore wind	en 14214
vic-hvdc system	ethanol copolymer	hybrid propulsion	solid-state lithium batteries
renewable energy penetration	hvdc transmission system	cuin,galise2 solar cell	multijunction solar cell
photovoltaic generator	photovoltaic power plants	bulk heterojunction organic solar cell	improve energy efficiency
variable renewable energy	photovoltaic panels	sodium ion batteries (liba)	hybrid propulsion
zinc-air battery	mppt control	short-term wind power	cuin,galise2 solar cell
pem fuel cells	solar power plants	high reversible capacity	bulk heterojunction organic solar cell
photovoltaic (pv) power generation	tip speed ratio	pvt	sodium ion batteries (liba)
thermal collector	lithium metal anodes	unconventional reservoirs	short-term wind power
photovoltaics (pv)	plasma-facing components	clean and renewable energy	high reversible capacity
hydrogen storage system	hydrate reservoir	crystalline silicon solar cell	bvt
fuel cell catalyst	high sandstone reservoir	pv plants	unconventional reservoirs
non-renewable energy	high power conversion efficiency	solid-state dye-sensitized solar cells	clean and renewable energy
phew	inverted polymer solar cell	wind turbine control	crystalline silicon solar cell
pv output	edge localized modes	wind turbine blades	pv plants
li anode	polymer solar cells	fuel cell application	solid-state dye-sensitized solar cells
solar photovoltaic system	ni-v2	lithium ion battery anode	wind turbine control
renewable energy production	rechargeable lithium-ion batteries	ev charging	wind turbine blades
thermal liquefaction	building energy efficiency	bifunctional electrocatalysts	fuel cell application
anode supported	offshore wind energv	solar chimnev	lithium ion battery anode
hydrothermal liquefaction (htl)	is anode	alkaline fuel cell	ev charging
anode supported	renewable energy resources	shale gas reservoir	bifunctional electrocatalysts
biodiesel fuels	solar desalination	dye-sensitized solar cells (dssc)	solar chimnev
bioenergy production	fuel cell stack	solar photovoltaics	alkaline fuel cell
wind penetration	clean energy source	na-ion	shale gas reservoir
lithium-ion (li-ion)	cathode catalysts	improving energy efficiency	dye-sensitized solar cells (dssc)
pyrolysis oil	lithium ion phosphate	wind energy generation	solar photovoltaics
wave energoy conversion	grid connected photovoltaic	high power conversion	na-ion
gas diffusion layers	intermediate-temperature solid oxide fuel cells	photovoltaic (pv) energv	improving energoy efficiency
catalytic hydrogen evolution	marine renewable energy	edacs	wind energoy generation
	her electrocatalyst	quantum dot solar cells	high power conversion

Affordable and Clean Energy			
SDG 7			
photovoltaic (pv) energy	iso 26262	high performance anode	membrane-electrode
addition	thin film photovoltaic	energy biomass	hybrid electric vehicles (hev)
quantum dot solar cells	penumbra and observe (p&o)	capacity decay	lithium-metal
wave energy converters (wecs)	all-polymer solar cell	generator (dfa)	offshore wind farm
power forecasting	solar thermal collectors	cellulose ethanol	solid-oxide fuel cell
net present cost	pv system	unconventional reservoir	bulk heterojunction organic solar cells
current turbine	hub height	proton exchange membrane (pem) fuel cells	doubly fed induction generators
solar thermal energy	large-scale renewable energy	bio diesel production process	h ₂ -o ₂
grid side converter	annual energy production	donor materials	h ₂ evolution
parallel hybrid electric vehicle	short-circuit photocurrent density	high open circuit voltage	full cells
photovoltaic characteristics	sustainable energy source	poly sulfide shuttle	permanent magnet synchronous generator
large-scale wind farm	access to electricity	short rotation coppice	solar tracker
photovoltaic technologies	cu ₂ n ₂ s ₂ (cna)	lithium storage properties	green buildings
uncertainty of wind power	high energy efficiency	net zero energy	solar module
flexible solar cell	pv plant	perovskite properties	monopile
color side converter	membrane electrode assemblies (mea)	initial discharge capacity	18500
sodium-ion batteries	lfpo4 battery	dflg wind turbine	pv penetration
polymer electrolyte membrane fuel cells (pemfc)	phenyl-d51 butyric acid methyl ester	perovskite trough solar collector	wind generator
thin-film solar	grid-connected pv	h-ion diffusion	hybrid vehicles
w7-x	smart energy	photovoltaic industry	lithium-ion battery cell
irreversible capacity	wind potential	bifunctional electrocatalyst	dms
lithium ion diffusion	photovoltaic solar cell	global maximum power point	electrochemical hydrogen storage
renewable energy conversion	national spherical ionus experiment	power curtailment	trough collectors
photovoltaic installation	energy-efficient building	energy building	doubly-fed induction
efficiency of solar cells	dehydrogenation	ground source heat pump (gshp)	alkaline hydrogen evolution
bulk-heterojunction solar cell	perovskite photovoltaics	voltage ride through	fusion power plant
fuel cell vehicles	solar pv system	layered cathode	solar modules
ai solar cells	charging demand	energy crops	efficient buildings
short-circuit current density	large wind farm	properties of biodiesel	photoelectric conversion efficiency
photovoltaic systems	bio-energy	levelized cost of energy (lcoe)	pv charge
charging load	gasification of biomass	advice	grid-connected pv system
inverted polymer solar cells	csp plant	integration of wind power	hydc system
light oil reservoirs	scapc-1d	thin-film photovoltaic	wind generation
reservoir space	solar cell structure	wind turbine rotor	specific discharge capacity
multi-terminal hydc	pv installation	h-ion cells	variable renewable
wind power	h-air	eco-design	low voltage ride through
photovoltaic conversion	enhanced geothermal systems	maximum power point tracking algorithm	h ₂ -o ₂ batteries
hybrid-electric	mppt controller	solar thermal system	solar air heater
bio diesel combustion	renewable energy technology	bicarbonate	cu ₂ n ₂ s ₂ solar cells
solar hydrogen production	photovoltaic output	business fuel	silicon heterojunction
tubular solid oxide fuel cell	all-polymer solar cells	h ₂ diffusion	bio-hydrogen
photovoltaic plants	capacity fade	pv power plants	parabolic trough collectors
solar cell application	wind generation system	solar field	aberrant heating
wind turbine tower	vehicle to grid (v2g)	multijunction solar cells	energy efficiency of buildings
formic acid fuel cell	lithium dendrites	wind energy potential	catalytic fast pyrolysis
lithium-ion batteries (lib)	photovoltaic energy	energy efficiency of building	inverted organic solar cell
quality reservoir	renewable energy utilization	marine renewable	hydrate reservoirs
photovoltaic cells	fast charging station	li metal batteries	16,61-phenyl-d51-butylric acid methyl ester
apert lithium-ion batteries	planar solid oxide fuel cell	reservoir volume	electric vehicles charging
high-voltage dc	nearly zero energy building	lithophilic	high capacitance reservoirs
grid-side converter	thin film solar cells	torrefaction	open circuit voltage (ocv)
polymer solar cell	hi-2a tokamak	renewable energy supply	tubular solar
wind resource	dye sensitized	hybrid solar	lithium storage
li-ion cell	polymer photovoltaic	bio-fuels	solar hydrogen
oscillating water column (owc)	roof-top photovoltaic	bulk-heterojunction solar cells	reservoir permeability
high ice	energy renewable	wind power and photovoltaic	direct methanol fuel cell
photovoltaic modules	high theoretical capacity	wind turbine systems	smart charging
floating wind turbines	silicon photovoltaic	h ₂ storage	energy management strategy
fuel cell electric vehicle	trough solar collector	wind turbine wake	cells
electric vehicle charging	energy access	electric propulsion system	pv inverters
hydc cable	1445o12	biomass gasification	reservoir stimulation
photovoltaic power generation system	vst electrolyte	lithium-ion diffusion	li plating
solar tracking	global maximum power	the three gorges reservoir	solar power plant
pv generation	overall energy efficiency	landem cell	n719 dye
parabolic trough	wind power plant	efficient solar cells	energy-saving potential
dflg	lithium anode	vehicle charging	distributed renewable
solid electrolyte interphase	fuel cell stacks	battery state of charge	passive house
building-integrated photovoltaic	wind farm power	battery hybrid	voltage ride-through
electromobility shift assay	quantum dot-sensitized solar cell	photovoltaic grid-connected	energy efficiency improvements
en 14214	intermittent renewable energy sources	hybrid energy system	wind power generators
solid-state lithium batteries	electric vehicle charging stations	cell vehicles	cascade reservoirs
multijunction solar cell	discharge specific capacity	microbial fuel cells	solar plant
improve energy efficiency	quantum dot sensitized solar cells	biodiesel industry	biomass gasifier
permits performance	photovoltaic renewable energy	charging stations	high-capacity anode
small wind turbine	bioenergy feedstock	heterojunction solar cell	donor polymer
mppt technique	future fusion	fullerene solar cells	photocatalytic hydrogen
wind and solar power	wind park	short-circuit photocurrent	thin-film silicon solar cell
planar heterojunction	building-integrated	pv inverter	high-quality reservoir
concentrating photovoltaic	cascade reservoir	cds buffer	photovoltaic array
electric mobility	photovoltaic generation system	rural electrification	photovoltaic response
pv solar	perovskite solar cell (psc)	rated wind speed	reservoir heterogeneity
pv generator	conventional reservoirs	alkaline fuel cells	solar thermal power
system energy efficiency	concentrating solar	lithium secondary batteries	international thermonuclear experimental reactor
lithium-ion storage	ground source heat pump system	photovoltaic (pv) plant	doubly fed induction generator
(pemfc)	photovoltaic power station	large-scale photovoltaic	solar and wind energy
photovoltaic technology	lvt	bioethanol production	
biodiesel feedstock	shale reservoir	estm (p75)	
fuel cell vehicle	energy saving potential	hydrogen-storage	
ground heat exchangers	power forecast	use of renewable energy	
lithium storage capacity	pouch cell	fuel cell electrode	
energy efficient building	air batteries	point tracker	
wind turbine generators	solar-to-fuel	sei film

distribution inequality	inclusive practice	access to health	illegal migrant
racial equality	proportion measures	pay differential	terrorist financing
illegal immigrants	discrimination at work	anti-discrimination law	inequality trend
new cost housing	financial justice task force	the affordable care act	quality education
social equity	healthcare disparity	inequalities in access	regulation and supervision
health care access and utilization	social housing sector	chinese migrant workers	immigrant policies
market manipulation	estate tax	gender inequality index	health care inequalities
subprime mortgage	civil rights movement	inclusive learning environments	healthcare inequities
banking risk	health status disparities	medical/medicare	immigration policies
health gap	income-related inequality	socioeconomic mobility	financial instability hypothesis
gender-based discrimination	healthcare inequalities	ethnic residential segregation	gender equality policy
health measures	affordable access	health distributions	health inequities
economic gaps	americans with disabilities act (ada)	inclusive communities	2007 financial crisis
public housing estate	college students with disabilities	attitudes towards inclusive education	female migrant
economic migrants	remittance flows	unafforded immigrants	compensating wage differential
socioeconomic gap	security law	banking regulations	poverty alleviation
temporary migration	rural migrant worker	public housing estates	affordable inequalities
equity in healthcare	social and economic inequalities	affordable care act medical expansion	economic gradient
disparities in access	civil rights	center for medicine and medical services (cms)	past civil rights
discrimination against women	civil right	security law	health law
access to health	bank capital	income differentials	equity
too big to fail	reducing disparities	equal protection	wage distributions
equal employment	immigration laws	social justice	migration legislation
intergenerational social mobility	rural migrant workers	prudential policies	immigration restriction
rural health inequalities	dual eligible	crisis period	diversity in the workplace
refugee policy	immigrant settlement	undocumented youth	fair housing
universal health	inclusive education policy	uninsured patients	su migration
racial stratification	educational inequalities	economic distribution	downward mobility
inequality measures	refugee conversion	diversity policies	socioeconomic gaps
class mobility	quality index	state children's health insurance program	wage disparities
remittance office	universal healthcare coverage	household income inequality	economic mobility
affordable law	asylum applications	asylum law	social and ethnic minority
racial-ethnic disparities	justice issues	urban migrant workers	self-pay
discrimination in health care	social inclusion and exclusion	bank regulations	access health care
income gaps	social justice work	money laundering regulation	post-crisis period
too big to fail	income differential	migrant health	disparities in health status
equality measures	affordable care act (aca)	pay gaps	race equality
disability discrimination act	dozd frank	security regulations	healthcare coverage
healthcare stability	international migration	state medical expansion	redistribution of income
gender equality policies	relative inequalities	gender earnings gap	distribution of wages
migrants integration	transnational labour	top income	socioeconomic position (top)
prudential policy	female migrant worker	cancer disparities	social housing projects
macroprudential policy	racialized ethnic discrimination	crisis periods	internal migration
too big to fail	minimum wage increase	the gini coefficient	school desegregation
equality measures	interethnic health disparities	health and health inequalities	disparities in treatment
disability discrimination act	financial services authority	academic and social integration	social health inequalities

Reduced Inequalities		
SDG 10		
social and economic inequality	mainstreaming gender	mental health care access
discrimination experience	disability equality	healthcare access and utilization
economic justice	poverty reduction strategy paper	free trade zone
redistribution of wealth	progressive income tax	mexican migrant
racial/ethnic differences	social justice values	health care coverage
healthcare differences	caral poverty reduction	capital gain
social determinants of health (sdoH)	capital requirement	equity reduction
social determinants of health	migrant labor	unaccompanied minor
anti-discrimination legislation	displacement countries	international refugee law
social justice teacher education	refugee climates	minimum wage policy
health-care disparities	long waits	integration policy
cast	refugee status determination	inclusive education policies
aid coefficient	disasters, climate	social dispersion
housing discrimination	forced 77%	crisis disorder decomposition
social determinants of health	private insurance	downward social mobility
macro-prudential	people seeking asylum	public housing tenants
inclusive settings	job	political asylum
inequality of income	social housing stock	highly skilled migration
age gaps	china's foreign trade	wage disparity
quality in education	age disparity	intergenerational income mobility
educational inequality	intergenerational income mobility	health insurance coverage
equality and social justice	health insurance coverage	disabled participation
socioeconomic deprivation	disabled participation	medical participation
capital requirements	housing policies	inheritance law
education inequality	unemployment	social determinants of health
inequality indices	market abuse	inclusive teacher
international donor	social remittance	low wage
affordable care act	social justice advocacy	ability
modern business taxation	racial/ethnic minorities	desegregation
removing countries	wage inequalities	public housing projects
socioeconomic position	deposit insurance scheme	social inclusion/exclusion
security situation	internal security level	migration crisis
economic system	refugee policies	affirmative action programs
refugee claimant	searching for social justice	minority policies
inclusive teaching practices	civil rights law	social-ethnic
trade liberalization	compensating wage differentials	regional economic disparities
socioeconomic health inequalities	includes civil	action policies
compensating wage	high inequality	social and economic justice
usual source of care	regulatory capital requirements	
disabled employee	affordable home	
migrant health	earnings gaps	
justice decomposition	poor-rich	
undocumented worker	burdening	
social and health inequalities	functional income distribution	
age gap	case decomposition	
health social determinants	financial crisis	
social justice	market discipline	
human smuggling	skilled immigration	
bank monitoring	care inequality	
European banking	regional income	
age ratios	attracting students with disabilities	
real estate tax	anti-migrant	
international donors	capital i account	
social justice leadership	deposition	
migrant laborer	social justice in education	
capital buffer	trade balance	
wage differences	household income distribution	
income gaps	economic redistribution	
European integration	insurance gaps	
war refugees	health care inequalities	
educational inequity	racial bilingual	
affordable care	racial equity	
health equity research	social justice research	
refugee and asylum seeker	justice in education	
housing providers	inclusive cities	
capital ratios	as immigration	
income segregation	anti-fraud/anti-money laundering	
insurance status	radical perspectives	
insured patients	migrant policy	
uninsured	foreign labour	
socioeconomic gradient	enriched discrimination	
service blinder	systemic risk	
migrant integration policies	inequality of opportunities	
inequality trends	migrant labourer	
trade liberalization	morally disparities	
students without disabilities	global health equity	
students with special educational needs	individual development account	
inequality indicators	occupational segregation	
barrier	housing affordability	
racial and ethnic minorities	social gap	
racial and ethnic	inclusive societies	
quality policies	race-specific	
discrimination experiences	disciplines	
trade structure	deferred action for childhood arrivals	
social housing system	green state	
rural poverty alleviation	poverty reduction effect	
migration and asylum	low-skilled	
justice and equity	temporary foreign worker	
undocumented workers	and financial inclusion	
affirmative action policy	equality act	
housing policy	immigration regime	
china securities regulatory commission	measures of income inequality	
gender health disparities	the doord bank act	
u.s. immigration	migrant network	
bilateral trade	social remittances	
pay differentials	wage structure	
anti-income	anti-discrimination law	

Sustainable Cities and Communities
